

The Charter Store
242 E. Commercial Blvd
Suite C
Fort Lauderdale, FL, 33308
(800) 805-JETS (5387)

We are very proud to have become an associated member of the GF Group of networks, including **AOP, AOP Project Partners and C5C** and we'd like to briefly introduce our company, **The Charter Store**, to all of you.

Our company was founded on some very basic business principals that revolve around experience, responsiveness and delivering on our commitments. Aircraft charters are not "one size fits all" and neither are our valued customers. With nearly 30 years experience in aircraft chartering to and from all parts of the globe, we've built our reputation on really listening to our clients needs and working to understand their particular concerns and requirements.

From oil and gas projects to government and relief air charter missions, our resume covers the entire spectrum of this exciting industry. It's also an industry that absolutely requires the right contacts and knowhow to consistently engineer realistic solutions that our customers expect. We take an immense amount of satisfaction in being able to apply our experience and goodwill to this new venture.

We have teamed up with hand selected air charter expert partners in Europe, the Middle East, Asia and Africa to provide you with the global service and local expertise you can expect from your charter provider.

The Charter Store and it's global partners bring you a wealth of assets including:

- Experience in every type of aircraft chartering including Cargo, VIP, AOG and Government projects etc. etc.
- Building competitive pricing points that match customers' needs.
- Responsibility, accountability and quality.
- 24/7/365 service.
- A worldwide network of tried and tested aircraft providers.
- Financially secure structure that facilitates growth and stability.
- Specialty markets including conflict regions, Oil+Gas and other project cargo, relief goods, automotive products and film/entertainment.

They say there is no substitute for experience along with a good reputation to back it up. We personally invite you to contact us and discuss your particular needs and how we can put our field tested background to work for you.

Harry Steiner and Rusty Durden
